Weber carburetor Forum

I'm not sure if I'm doing this right. I've got a brand new genuine Weber 32/36 dgev. I was told the float level does not come set so I checked and it was way off from the info I could find. I adjusted the float drop to 51mm, no problem. Then it sounds like I'm supposed to hold the Carb top vertical and let the float rest on the needle valve without compressing it. I set that to 35mm ...

Weber 32/36 float level - Maintenance/Repairs - Car Talk ...

Float level problems are very rare with New Weber Carburetors. Refer to a Weber Shop manual or contact your Weber Dealer for specifications or instructions. Also check for dirt or other foreign matter in the needle and seat. 6. PERSISTENT PROBLEMS The following problems are not listed in the guide because they are unique,

Fuel Management System: Trouble Shooting Weber Carburetor ...

Weber Auxiliary Venturi's come in sizes from 3.5, 4.0, 4.5, 5.0, 5.5, and 6.0mm. This size is an "equivalent hole diameter that would flow the same amount of fuel" as the rectangular slot in the Auxiliary Venturi. Common Weber books recommend 40DCOE carbs with 4.5mm Aux. Venturi's for stock 240z's and 260z's.
