Bs 8001 A New Standard

BS 8001 - A new standard is available. Our current economic model is dominated by a linear approach to consumption and production, where materials are grown or extracted, then made into goods which are used and then disposed of. Whilst the circular economy - where resources are recovered at their highest quality and kept in circulation for as long as possible - is not a new concept, it has become increasingly popular in recent years as more businesses seek an alternative to our current ...
