The bestselling author of *In the Heart of the Sea*, *Mayflower*, and *In the Hurricane's Eye* tells the story of the Boston battle that ignited the American Revolution, in this "masterpiece of narrative and perspective." (Boston Globe) In the opening volume of his acclaimed American Revolution series, Nathaniel Philbrick turns his keen eye to pre-Revolutionary Boston and the spark that ignited the American Revolution. In the aftermath of the Boston Tea Party and the violence at Lexington and Concord, the conflict escalated and skirmishes gave way to outright war in the Battle of Bunker Hill. It was the bloodiest conflict of the revolutionary war, and the point of no return for the rebellious colonists. Philbrick gives us a fresh view of the story and its dynamic personalities, including John Adams, Samuel Adams, John Hancock, Paul Revere, and George Washington. With passion and insight, he reconstructs the revolutionary landscape—geographic and ideological—in a mesmerizing narrative of the robust, messy, blisteringly real origins of America.

What lights the spark that ignites a revolution? What was it that, in 1775, provoked a group of merchants, farmers, artisans and mariners in the American colonies to unite and take up arms against the British government in pursuit of liberty? Nathaniel Philbrick, the acclaimed historian and bestselling author of *In the Heart of the Sea* and *The Last Stand*, shines new and brilliant light on the momentous beginnings of the American Revolution, and those individuals—familiar and unknown, and from both sides—who played such a vital part in the early days of the conflict that would culminate in the defining Battle of Bunker Hill. Written with passion and insight, even-handedness and the eloquence of a born storyteller, *Bunker Hill* brings to life the robust, chaotic and blisteringly real origins of America.

What lights the spark that ignites a revolution? What was it that, in 1775, provoked a group of merchants, farmers, artisans and mariners in the American colonies to unite and take up arms against the British government in pursuit of liberty? Nathaniel Philbrick, the acclaimed historian and bestselling author of *In the Heart of the Sea* and *The Last Stand*, shines new and brilliant light on the momentous beginnings of the American Revolution, and those individuals - familiar and unknown, and from both sides - who played such a vital part in the early days of the conflict that would culminate in the defining Battle of Bunker Hill. Written with passion and insight, even-handedness and the eloquence of a born storyteller, *Bunker Hill* brings to life the robust, chaotic and blisteringly real origins of America.

Describes the political, diplomatic, and military challenges faced by the delegates from the 13 colonies at the Continental Congress and how they came together to agree to free themselves from British rule and forge independence for America.

NEW YORK TIMES BESTSELLER "Nathaniel Philbrick is a masterly storyteller. Here he seeks to elevate the naval battles between the French and British to a central place in the history of the American Revolution. He succeeds, marvelously."--The New York Times Book Review The thrilling story of the year that won the Revolutionary War from the New York Times bestselling author of *In the Heart of the Sea* and *Mayflower*. In the concluding volume of his acclaimed American Revolution series, Nathaniel Philbrick tells the thrilling story of the year that won the Revolutionary War. In the fall of 1780, after five frustrating years of war, George Washington had come to realize that the only way to defeat the British Empire was with the help of the French navy. But coordinating his army's movements with those of a fleet of warships based thousands of miles away was next to impossible. And then, on September 5, 1781, the impossible happened. Recognized today as one of the most important naval engagements in

Read Book Bunker Hill A City Siege Revolution Nathaniel Philbrick

the history of the world, the Battle of the Chesapeake—fought without a single American ship—made the subsequent victory of the Americans at Yorktown a virtual inevitability. A riveting and wide-ranging story, full of dramatic, unexpected turns, *In the Hurricane's Eye* reveals that the fate of the American Revolution depended, in the end, on Washington and the sea.

An award-winning historian reinterprets the battle that launched the American Revolution. George C. Daughan's magnificently detailed account of the Battle of Lexington and Concord challenges the prevailing narrative of the American War of Independence. It was, Daughan argues, based as much in economic concerns as political ones. When Massachusetts militiamen turned out in overwhelming numbers to fight the British, they believed they were fighting for their farms and livelihoods, as well as for liberty. Benjamin Franklin was not surprised by this widespread belief. In the years prior to the Revolution, Franklin had toured Great Britain and witnessed the wretched living conditions of the king's subjects. They wore rags for clothes, went barefoot, and had little to eat. They were not citizens, but serfs. Franklin described the appalling situation in a number of letters home. In the eyes of many American colonists, Britain's repressive measures were not seen simply as an effort to reestablish political control of the colonies, but also as a means to reduce the prosperous colonists themselves to the serfdom described in the Franklin letters. Another key factor in the outcome of this historic battle, according to Daughan, was the scorn British officers had for colonial fighters. Although the British officers had fought alongside colonial Americans in the ferocious French and Indian War, they failed to anticipate the skill, organization, and sheer numbers of the colonial militias. Daughan explains how British arrogance led them to defeat at the hands of motivated, experienced patriot fighters determined to protect their way of life. Authoritative and immersive, *Lexington and Concord* gives us a new understanding of a battle that became a template for colonial uprisings in later centuries.

A New York Times Bestseller Winner of the George Washington Prize A surprising account of the middle years of the American Revolution and the tragic relationship between George Washington and Benedict Arnold, from the New York Times bestselling author of *In The Heart of the Sea*, *Mayflower*, and *In the Hurricane's Eye*. "May be one of the greatest what-if books of the age—a volume that turns one of America's best-known narratives on its head."—*Boston Globe* "Clear and insightful, [*Valiant Ambition*] consolidates Philbrick's reputation as one of America's foremost practitioners of narrative nonfiction."—*Wall Street Journal* In the second book of his acclaimed American Revolution series, Nathaniel Philbrick turns to the tragic relationship between George Washington and Benedict Arnold. In September 1776, the vulnerable Continental army under an unsure George Washington evacuated New York after a devastating defeat by the British army. Three weeks later, one of his favorite generals, Benedict Arnold, miraculously succeeded in postponing the British naval advance down Lake Champlain that might have lost the war. As this book ends, four years later Washington has vanquished his demons, and Arnold has fled to the enemy. America was forced at last to realize that the real threat to its liberties might not come from without but from within. Complex, controversial, and dramatic, *Valiant Ambition* is a portrait of a people in crisis and the war that gave birth to a nation.

This thrilling book tells the full story of the an iconic episode in American history, the Boston Tea Party—exploding myths, exploring the unique city life of eighteenth-century Boston, and setting this audacious prelude to the American Revolution in a global context for the first time. Bringing vividly to life the diverse array of people and places that the Tea Party brought

together-from Chinese tea-pickers to English businessmen, Native American tribes, sugar plantation slaves, and Boston's ladies of leisure-Benjamin L. Carp illuminates how a determined group of New Englanders shook the foundations of the British Empire, and what this has meant for Americans since. As he reveals many little-known historical facts and considers the Tea Party's uncertain legacy, he presents a compelling and expansive history of an iconic event in America's tempestuous past.

Based on the author's narrative Bunker Hill: a city, a siege, a revolution.
