Three prolific Urban Christian authors have teamed up in this anthology that proves revenge isn't always so sweet. Musik Jalice Carter is in love. The only problem is that she doesn't believe the man is in love with her. What makes it even worse is that the man is her husband. Musik really starts to doubt his love for her when she uncovers secrets on his social networking page. Having given that man 15 years of her life, Musik is not going to walk away without getting answers, and more importantly, without getting revenge. Sabrina Rogers is devastated when she finds out that the man of her dreams has another woman. She's mortified when she discovers it's her mother! At odds for years, mother and daughter finally settle their differences to join forces against Blake Harrison. Revenge never tasted so sweet as they team up to put this player out of commission for good. But after the dirty deed is done, will forgiveness and faith be enough to keep their relationship together? Where do broken hearts go? If you're Tamera Watson, you go to the pawn shop to buy a gun. Tamera's husband is gone and so is her life savings. With the last of her pennies, she pays a private detective to hunt him down—so she can gun him down. When she finds him, will she be able to pull the trigger, or will the God of her heart stop her before she lets her desire for revenge take her too far?

A fascinating exploration of the relationship between American culture and music as defined by musicians, scholars, and critics from around the world.

In this fascinating work of popular history, the New York Times bestselling author of *Sex with Kings* and *The Royal Art of Poison* uncovers the bedroom secrets of American presidents and explores the surprising ways voters have reacted to their leaders’ sex scandals. While Americans have a reputation for being strait-laced, many of the nation’s leaders have been anything but puritanical. Alexander Hamilton had a steamy affair with a blackmailing prostitute. John F. Kennedy swam nude with female staff in the White House swimming pool. Is it possible the qualities needed to run for president—narcissism, a thirst for power, a desire for importance—go hand in hand with a tendency to sexual misdoing? In this entertaining and eye-opening book, Eleanor Herman revisits some of the sex scandals that have rocked the nation's capital and shocked the public, while asking the provocative questions: does rampant adultery show a lack of character or the stamina needed to run the country? Or perhaps both? While Americans have judged their leaders’ affairs harshly compared to other nations, did they mostly just hate being lied to? And do they now clearly care more about issues other than a politician’s sex life? What is sex like with the most powerful man in the world? Is it better than with your average Joe? And when America finally elects a female president, will she, too, have sexual escapades in the Oval Office?
