Crime is modern

Every day brings
another horrific news

country get like this?
For the first time ever, a
senior policeman -
writing under an

the nation into action.

all in a day's work for
Scenes of Crime Officer
(SOCO) Larry
Henderson who, in 999
CSI provides an
unforgettable insight
into a life dedicated to

forensics. Larry, whose career with London's Metropolitan Police started in 1971, a time when police officers were more than a little sceptical of science, soon proved his worth and attended every kind of crime scene, from terrorism to rape and from blackmail to murder - before he became the head of the

Flying Squad's forensic team during the busiest and most dangerous period of the legendary outfit's existence. Soon, Larry was caught up in shoot-outs, pavement ambushes, record-breaking drug deals and tiger kidnappings, confronting some of the UK's most terrifying villains along the way. Larry's groundbreaking

work features some of the UK's most notorious crimes - a key piece of forensic evidence from one of Larry's murder cases is displayed at Scotland Yard's infamous Crime Museum. At turns breathtaking, fascinating, hilarious and tragic, 999 CSI opens up a truly astonishing world that

Brutal and violent, this tell-all is a personal account of the life of Razor Smith and the world in which he lived,

where ruthlessness, viciousness, and savagery are prized and admired. In prison more than half of his life for assaults and armed robberies, Smith became confined in a peculiar kind of hell from which his only route of escape was to master the art of writing. His book shows us a face of crime not often encountered in run-

of-the-mill true-crime books: a face as tender and intimate as a lover's, yet as frightening as a killer's. Powerfully written from beginning to end, this is an extraordinarily vivid account of how a kid from South London became a career criminal, a blistering indictment of a system that brutalized young

unsentimental
acknowledgment of the
adrenaline-fueled thrills
of the criminal life.

Shocking, fascinating,

reveals Smith as one of

work is the ultimate examination of the facts, theories, fictions and fascinations surrounding the greatest whodunit in history. The Complete Jack the Ripper lays out all the evidence in the most comprehensive summary ever written about the Ripper.

Rumbelow, a former London Metropolitan policeman, and an

He also examines the mythology surrounding the case and provides some fascinating insights into the portrayal of the Ripper on stage and screen and on the printed page. More

A Sunday Times top-five bestseller 'This is a remarkable book . . . profound and deeply

It has as much to tell us about mental illness as it does about policing' Alastair Stewart John Sutherland joined the Met in 1992, having dreamed of being a police officer since his teens. Rising quickly through the ranks, he experienced all that is extraordinary about a life in blue: saving lives, finding the

friendship and failure, of serious illness and slow recovery. With searing honesty, it offers an immensely moving and personal insight into what it is to be a police officer in Britain today.

A surprisingly topical non-fiction account of the murder that came to symbolise the crimewave threatening

The most common
triggers for homicide are
fear, rage, revenge,
money, lust, and, more
rarely, sheer madness.

This isn't an exact
science, of course. Any
given murder can have
multiple triggers. Sex
and revenge seem to be

common partners in crime. Rage, money, and revenge make for a dangerous trifecta of triggers, as well. This book offers my memories of homicide cases that I investigated or oversaw. In each case, I examine the trigger that led to death. I chose this theme for the book because even though the why of a

And even if we solve a case without knowing the trigger, the why still intrigues us, disrupting our dreams and lingering in our minds, perhaps because each of us fears the demons that lie within our own psyche—the
