Power is the central organizing principle of all social life, from culture and education to stratification and taste. And there is no more prominent name in the analysis of power than that of noted sociologist Pierre Bourdieu. Throughout his career, Bourdieu challenged the commonly held view that symbolic power—the power to dominate—is solely symbolic. He emphasized that symbolic power helps create and maintain social hierarchies, which form the very bedrock of political life. By the time of his death in 2002, Bourdieu had become a leading public intellectual, and his argument about the more subtle and influential ways that cultural resources and symbolic categories prevail in power arrangements and practices had gained broad recognition. In *Symbolic Power, Politics, and Intellectuals*, David L. Swartz delves deeply into Bourdieu's work to show how central—but often overlooked—power and politics are to an understanding of sociology. Arguing that power and politics stand at the core of Bourdieu's sociology, Swartz illuminates Bourdieu's political project for the social sciences, as well as Bourdieu's own political activism, explaining how sociology is not just science but also a crucial form of political engagement.

Social power, defined as "the ability to set standards, create norms and values that are deemed legitimate and desirable, without resorting to coercion or payment", is a central part of contemporary international politics. This text introduces and defines the concept of social power and considers how it works in international politics. It demonstrates how social power is a complex phenomenon that manifests itself in a wide variety of ways and circumstances, particularly in culture, institutions, law, and the media. Providing a global perspective on the role of social power from the EU, the US, the Middle East, and China, this book: Focuses on the key aspects of social power: centrality, complexity, and comprehensiveness. Examines the complex relationship between soft and hard power, the role of the media, and new communications technologies. Explores the interplay between state and non-state actors in framing the public discourse, setting the agenda, molding identities, and ultimately determining the outcome of policy processes. Features a broad range of international case studies and addresses issues including: culture and pop culture, media, public diplomacy, and branding. With particular focus on the social power of non-state actors, such as non-governmental organizations, the media, and consumers, *Social Power in International Politics* offers a thought-provoking new perspective on how power is exercised in the complex reality of the contemporary world. It will be of particular interest to students and scholars of international relations, political science, and media and communications studies.

Why are people frequently suspicious of their political and corporate leaders? This book examines the psychological roots of political paranoia.

Through a collection of carefully selected articles, *Political Sociology: Readings on Power, Politics, State, and Society* helps students analyze and understand events in the political and social world through the lens of power structures and the distribution of power in society. Chapter 1 examines the components of a strong civic culture. Chapter 2 discusses the processes of elite formation in major industrialized countries like the United States, Germany, France, Britain, and Japan. Chapter 3 examines whether presidents are held responsible for the mistakes of their agencies and what the media's role is in shaping that responsibility. In Chapter 4, readers learn about the relations between states and women from the sociological perspectives of democracy and development. Additional chapters address racial politics in the Missouri Bootheel region; how big technology can serve as a symbol of state power, wealth, and political authority; and the concept of false consciousness and its impact on the lives of individuals. The final chapter discusses the history of voter inequality and voter suppression. Thoroughly modern in approach, *Political Sociology* is an exemplary resource for courses in the social sciences. Sebahattin Ziyank is Associate Professor in Sociology at the University of Texas Permian Basin. He has contributed books, book chapters, and articles to a variety of publications on topics such as homeless, delinquency, immigration, environmental studies, and political influence. Dr. Ziyank has made numerous conference presentations and chaired and organized several conference sessions. He is the recipient of the 2020 President's Research Award in 2020, La Mancha Society Golden Windmill Research Award in 2018, and the Outstanding Excellence in Teaching Award with the National Society of Leadership and Success in 2018. Dr. Ziyank serves as a board member for Odessa Links, an organization that provides a continuum of care services to homeless individuals.

Thoroughly revised and updated in this fifth edition, *Political Sociology: Power and Participation in the Modern World* illustrates the broad social bases of politics and also shows how politics and governmental actions can influence the fate of nations and their citizens. Providing insight into recent political sociological theories, Anthony M. Orum and new coauthor John G. Dale help students make sense of the many major social and political changes taking place in the world today. They examine such timely topics as the economy and politics, states and societies, civil society and politics, basic forms of political rule, power and equality in modern America, political parties, and citizen participation. Bringing together a wide variety of perspectives and ideas, this unique text also familiarizes students with recent scholarship on the American welfare state, social networks, and the business world. Throughout, the authors provide students with current assessments of popular incendiary topics, increasing their awareness and encouraging them to become more involved in the material. Classic and comprehensive, *Political Sociology: Power and Participation in the Modern World*, Fifth Edition, is ideal for upper-level undergraduate courses in political sociology.

This account of state-systems, which derives not from theoretical models but from the study of state-systems that have actually existed, emphasizes their moral or normative bases. It argues that a system of states presupposes a common culture. The essays deal with the concept of systems of states: the state-systems of Hellas; Hellas and Persia; the geographical and chronological boundaries of the modern states-system; international legitimacy; and triangles and duels. An introductory chapter by Hedley Bull draws the essays together and provides an account of Martin Wright's life and thought.

Robots are predicted to play a role in many aspects of our lives in the future, affecting work, personal relationships, education, business, law, medicine and the arts. As they become increasingly intelligent, autonomous, and communicative, they will be able to function in ever more complex physical and social surroundings, transforming the practices, organizations, and societies in which they are embedded. This book presents the proceedings of the Robophilosophy 2018 conference, held in Vienna, Austria, from 14 to 17 February 2018. The third event in the Robophilosophy Conference Series, the conference was entitled Envisioning Robots in Society – Politics, Power, and Public Space. It focused on the societal, economic, and political issues related to social robotics. The book is divided into two parts and an Epilogue. Part I, entitled Keynotes, contains abstracts of the keynotes and two longer papers. Part II is divided into 7 subject sections containing 37 papers. Subjects covered include robots in public spaces; politics and law; work and business; military robotics; and policy. The book provides an overview of the questions, answers, and approaches that are currently at the heart of both academic and public discussions. The contributions collected here will be of interest to researchers and policy makers alike, as well as other stakeholders.
