Electronic Projects for Musicians is a b-sides and rarities compilation album by the indie rock band The Apples in Stereo. It was released April 1, 2008 under the Simian Records, Yep Roc Records, and Elephant 6 labels. It can be seen as a companion to Science Faire, a 1996 compilation that collects recordings from the band released prior to their first album. Announced by frontman Robert Schneider in May 2007, Schneider described Electronic Projects for Musicians as having "all of our non-LP mat

Electronic Projects for Musicians - Wikipedia

Electronic Projects for Musicians. Even if you don't know an ohm from a volt, Craig Anderton's revised and expanded book shows you how to build 27 accessories that enhance your sound and broaden your musical horizons. If you're an old hand at musical electronics, you'll really appreciate that all of the processors, from tube sound fuzz to phase shifter are compatible and work together without creating noise, signal loss, bandwidth compression or any of the other problems common to ...
