The Mating Mind (2000) is an evolutionary psychology text in which the author Geoffrey Miller makes the case that the human mind is a fitness indicator that evolved through sexual selection.

The Mating Mind by Geoffrey Miller: Notes & Review | The ...

The human mind's most impressive abilities are like the peacock's tail: they are courtship tools, evolved to attract and entertain sexual partners. By shifting our attention from a survival-centered view of evolution to a courtship-centered view, I shall try to show how, for the first time, we can understand more of the richness of human art ...

4 THE MATING MIND The human mind's most impressive abilities are like the peacock's tail: they are courtship tools, evolved to attract and entertain sexual partners. By shifting our attention from a survival-centered view of evolution to a courtship-centered view, I shall try to show how, for the first time, we can understand

The Mating Mind - WordPress.com

Geoffrey Miller's The Mating Mind is one of the best books on human psychology ever written--on my list, he comes just after Dawkins' The Selfish Gene and Pinker's How the Mind Works. This is more than just a book about the psychology of sex.

The Mating Mind: How Sexual Choice Shaped the Evolution of ...

'The mating mind' revives and extends Darwin's suggestion that sexual selection through mate choice was important in human mental evolution - especially the more 'self-expressive' aspects of human behavior, such as art, morality, language, and creativity. Their 'survival value' has proven elusive, but their adaptive

Psychology 12(008): The Mating Mind: how Sexual Choice ...

In very intellectual circles, it might be suspected that THE MATING MIND by Geoffrey F. Miller is the most highly scientific book on "How Sexual Choice Shaped the Evolution of Human Nature," as the subtitle puts it.

The Mating Mind: How Sexual Choice Shaped the Evolution of ...

Miller's 2003 book The Mating Mind: How Sexual Choice Shaped the Evolution of Human Nature proposes that human mate choices, courtship behavior, behavior genetics, psychometrics, and life cycle patterns support the survival value of traits related to sexual selection, such as art, morality, language, and creativity. According to Miller, the adaptive design features of these traits suggest that ...
